

# The AHS Media Library: Easy programs for your club! or add your presentation to the Library!

By Nikki Schmith, AHS Media Librarian  
Region 2, Michigan

Over the last decade or two, AHS has collected organized presentations on traditional slide media and made them available for rental to AHS members and their associated activities. In recent years, the rental of these traditional 35mm slide programs has declined. In the interest of supporting our educational mission and providing more people access to these programs, a conversion to digital media began.

Today, the rental programs are available on CD, in MS PowerPoint format. Each program has a \$10 rental fee (unless indicated otherwise) and return postage and insurance are not included.

If you are interested in renting a program from the AHS Media Library, you have 6 choices:

“2007 National Convention” donated by Julie Covington

“2006 National Convention” donated by Nikki Schmith

“Region 3 Tour Gardens” donated by Julie Covington

“Daylilies through the Years” donated by John Stahl

“Late Blooming Daylilies” donated by John Stahl

“Gardening With Daylilies” This program is available on CD, in MS PowerPoint format (\$10.00 rental) OR in traditional 35MM format (\$15.00 rental), return postage and insurance not included.

These are great choices, but with an organization our size, we should have more; more to provide to outside, like-minded organizations to spread the news about daylilies; more to provide to local clubs to continue the excitement about daylilies; and finally, more to document where we’ve been, because we are headed into the future so fast.

If you have developed any programs, please consider sending a copy to the Media Librarian if you are willing for it to be rented out to members. You can allow such use without giving up your copyright to the images if that is a concern to you. A Deed of Gift form can be provided in that case, covering the use and disposition. No special formatting or programming is required. You could simply send in a CD of labeled images or a completely formatted and animated PowerPoint. You could send in a presentation you’ve done on hybridizing, dividing, planting or designing with daylilies. You could send in a presentation on conducting an daylily exhibition. The possibilities are endless!

If you are interested in the library in any way (donating, renting, and volunteering to help), or if you have questions, please contact the Media Librarian, Nikki Schmith at
